

# Singapore's Digital Enterprise Blueprint

Powering the next bound of digitalisation

## FOCUS AREA 1

Empower enterprises to Be Smarter by adopting AI-enabled solutions

- Refresh all Industry Digital Plans (IDPs) to incorporate AI-enabled solutions
- All pre-approved solutions under SMEs Go Digital (SMEGD) to be AI-enabled, where feasible
- More than 15,000 SMEs to benefit from AI-enabled solutions in the next 2 years
- More than 400 digitally advanced SMEs to benefit from GenAI x Digital Leaders

## FOCUS AREA 2

Enable enterprises to Scale Faster through integrated solutions

- Refresh all IDPs to include integrated solutions, where feasible
- Catalyse sector-specific integrated solutions via Advanced Digital Solutions scheme
- All pre-approved SMEGD solutions to be cloud-native, where feasible

## FOCUS AREA 3

Equip enterprises to Be Safer through improved cyber resilience

- Establish data protection and cybersecurity standards for pre-approved solutions under SMEGD
- All SMEs to have access to cybersecurity health check tools
- Chief Information Security Officer as-a-Service to help more than 400 SMEs annually to develop cyber health plans
- Develop sector-specific cybersecurity guides that align to Cyber Essentials and Cyber Trust

## FOCUS AREA 4

Upskill Workers to make full use of digital capabilities

- Refresh IDPs to include digital skills training roadmap for all workers, particularly in using AI tools
- Upskill 200,000 tech professionals under Jobs Transformation Map for I&C sector
- Push for skills-based hiring through TeSA for ITE and Polytechnics (TIP) Alliance
- Develop 15,000 AI practitioners through place and train efforts with companies
- Reskill 18,000 tech professionals in AI and other in-demand tech domains

We look forward to collaborating with partners to realise these ambitions and power the next bound of digitalisation.
